*2013 US News and World Report – Best Hospitals in Cancer*

## Two Year Post-Doctoral Fellowship Opportunity in Prostate Cancer Research

### OPEN POST DOCOTORAL FELLOWSHIP POSITION IN CANCER EPIDEMIOLOGY

Department of Public Health Sciences  
Henry Ford Hospital  
1 Ford Place, 3E  
Detroit, MI 48202

The **Department of Public Health Sciences** within the **Henry Ford Hospital** and the **Josephine Ford Cancer Institute** in Detroit, Michigan invites applications for a **post-doctoral fellow position**, available immediately, within our active research group in **Prostate Cancer Epidemiology**.

We seek talented and motivated candidates who plan to begin or expand their research career as a cancer epidemiologist and who wish to play a leading role on projects **focused on molecular epidemiology research** of patients with **prostate cancer** conducted within the large diverse **HFH patient population**.

In addition, the position offers exciting opportunities for **multi-disciplinary collaborations** and **professional development** including **publication**, **presentation at scientific conferences** and **involvement in proposal writing**.

Candidates must hold a **PhD in epidemiology, bioinformatics, biostatistics** or related discipline. Some molecular biology laboratory experience is desired, but not required. **Strong analytic skills**, with basic knowledge of **statistical genetic and bioinformatics software packages** as well as **basic computer programming skills** are required. Other requirements include strong communication skills, with experience in research design, and excellent writing and verbal skills.

Please send a **cover letter**, **CV**, **research statement**, and **contact information** for **2 references** to the **email address below**.

*HFH is an equal opportunity employer.*

HFH is located in **midtown Detroit** and is one of **top cancer hospitals** in the United States. In addition to clinicians developing **cutting edge surgical techniques** and cancer treatment regimens for a **large diverse patient population**, we have **world-class research faculty** including geneticists, pathologists, biostatisticians, cancer biologists and others involved in **cancer research**.
