

Job description:

A Postdoctoral fellow/ research fellow position is available immediately in Dr. Sing Yian Chew's laboratory (<http://www.ntu.edu.sg/home/sychew>), to study the effects of nanofiber topography and gene-silencing on neural tissue regeneration in spinal cord injuries. The Chew lab is part of the School of Chemical & Biomedical Engineering and the Lee Kong Chian School of Medicine, Nanyang Technological University, Singapore.

Job requirement:

Applicants should have at least a Ph.D. and proficient in neural tissue engineering and spinal cord injury. Applicants with published experience in animal studies preferred.

How to apply:

Interested candidates should send CV to Dr. Sing Yian Chew at: sychew@ntu.edu.sg

Starting salaries will depend on candidate's qualification and experience.

Only short-listed candidates will be notified for interview.

Application closes when the position is filled.
