

**Laboratory of Vascular Biology  
and Regenerative Medicine**

**Post -doc position, Centro Cardiologico Monzino,  
Milan, Italy**

**Position Description:**

A post-doctoral position is available at Centro Cardiologico Monzino

(<http://www.cardiologicomonzino.it/Ricerca/Pages/Ricerca.aspx>) in a productive and growing cardiovascular research laboratory.

Research will focus on the study (*in vitro* and *in vivo*) of novel mediators of cardiovascular disease in order to develop novel therapeutic strategies.

The successful candidate will be offered a competitive salary commensurate with experience and qualifications.

**Requirements:**

Applicant should possess:

- a Ph.D. or MD, Ph.D.
- a strong background in cellular and molecular biology
- documented research experience on rodent models of cardiovascular disease

**To Apply:**

Interested individuals should email a cover letter, curriculum vitae, and contact information for 3 references to:
