

CALIFORNIA'S  
STEM CELL  
AGENCY

# Director, Blood and Cancer Therapeutic Area, Director of Organ Systems Therapeutic Area and Director of Neuro/Ocular Therapeutic Area

## Who We Are

The California Institute for Regenerative Medicine (CIRM) is looking for highly talented individuals who are driven to deliver outstanding results and committed to radically improving medicine with stem cells to join our team.

At CIRM, we never forget that we were created by the people of California to accelerate stem cell treatments to patients with unmet medical needs and act with a sense of urgency commensurate with that mission.

To meet this challenge, our team of highly trained and experienced professionals actively partners with both academia and industry in a hands-on, entrepreneurial environment to fast-track the development of today's most promising stem cell technologies.

With \$3 billion in funding and approximately 300 active stem cell programs in our portfolio, CIRM is the world's largest institution dedicated to helping people by bringing the future of cellular medicine closer to reality.

## Position Descriptions

The mission of the Blood and Cancer Therapeutic Area is to attract and advance the most promising stem cell based technologies for cancer and blood-related conditions. The Blood and Cancer Therapeutic Area currently has over 20 active programs and a budget of over \$200 million. Projects in the therapeutic area range from translational research through human clinical trials.

The mission of the Organ Systems Therapeutic Area is to attract and advance the most promising stem cell based technologies for cardiovascular, lung, liver and other organ system-related conditions. The Organ Systems Therapeutic Area currently has over 25 active programs and a budget of over \$200 million. Projects in the therapeutic area range from translational research through human clinical trials.

CALIFORNIA'S  
STEM CELL  
AGENCY

The mission of the Neuro/Ocular Therapeutic Area is to attract and advance the most promising stem cell based technologies for neurological and ocular conditions. The Neuro/Ocular Therapeutic Area currently has over 25 active programs and a budget of over \$200 million. Projects in the therapeutic area range from translational research through human clinical trials.

The Director positions report directly to the President and CEO of CIRM and will have overall responsibility for leading a cross-functional team of scientists and project managers to develop and advance CIRM's portfolio of promising therapies in the blood and cancer fields.

The successful candidate will be a strong leader of people with an innate sense of urgency, who delivers outstanding results and inspires the team to find new and innovative ways of meaningfully advancing CIRM's mission.

Please see our individual Director job postings with requirements on CIRM's website at <http://www.cirm.ca.gov/about-cirm/jobs-and-rfps>
