POSTDOCTORAL POSITION

Cell Signaling in Normal and Leukemic Hematopoietic Stem and Progenitor Cells

Postdoctoral position available to investigate the role of genetic and epigenetic signaling in normal and leukemic hematopoietic stem and progenitor cells. Applicants with experience in signaling (both genetic and epigenetic), molecular biology, murine hematopoietic assays and general hematopoietic stem/progenitor cell biology are encouraged to apply.

The position is open to US citizens or green card holders. Salary commensurate with experience. Please send CV, statement of research interests, and 3 letters of recommendation to:

Reuben Kapur, Ph.D

Professor of Pediatrics, Molecular Biology & Biochemistry, Medical & Molecular Genetics,
Microbiology & Immunology,
Herman B Wells Center for Pediatric Research
