

Post-doctoral fellow for Neural Tissue Engineering : Singapore, Singapore

Postdoctoral fellow position is available in Dr. Sing Yian Chew's laboratory at the School of Chemical & Biomedical Engineering, Nanyang Technological University, Singapore, to study the effects of nanofiber topography and gene-silencing on neural tissue regeneration. Applicants should have at least a Ph.D. and proficient in nerve injury animal models and in vitro cultures for stem cell differentiation and neural tissue engineering. Applicants with published experience preferred.

Position available immediately. Interested candidates should send CV to Dr. Sing Yian Chew at: sychew@ntu.edu.sg
