

A postdoctoral position is available in Dr. Giannakakou's laboratory at Weill Cornell Medical College located in New York, NY. The search is for an enthusiastic, highly motivated researcher who shares a passion for scientific discovery to join an interactive and interdisciplinary team.

The successful candidate must have a Ph.D. (received within the last two years), a strong background in hematology and cellular/molecular biology, and publications in internationally recognized journals. Extensive experience in hematopoietic stem and progenitor cell assays, flow cytometry and transgenic/knockout mice is highly desirable. Skills in confocal microscopy and live cell imaging are also preferable. Interested candidates should send a curriculum vitae, a brief summary of research experience and interests and contact information for three references in a pdf file to:
