

Postdoctoral Fellow to study Mechanosensitive genes in cardiovascular disease

A postdoctoral position is available immediately to study the mechanisms by which mechano-sensitive genes and epigenetics regulate vascular biology, atherosclerosis and aortic valve disease, and to develop gene-based therapies and targeted delivery methods in Coulter Department of Biomedical Engineering at Emory University and Georgia Tech in Atlanta, Georgia, USA. We are looking for a motivated and talented biomedical scientist or engineer with PhD or MD in related fields and with strong publication record. Please apply here: <https://faculty-emory.icims.com/jobs/18016/job>, and also send your CV by e-mail to Professor Hanjoong Jo at hjo@emory.edu. Applications will be reviewed on a rolling basis until filled but by June 10, 2018.
