WENDY HUANG, PH.D  
ASSISTANT PROFESSOR  
DEPARTMENT OF CELLULAR AND MOLECULAR MEDICINE

EMAIL: [wendyjmhuang@ucsd.edu](mailto:wendyjmhuang@ucsd.edu)  
HTTP://CMM.UCSD.EDU

Postdoctoral Fellow in Molecular Immunology: San Diego, United States.

Postdoctoral position in Molecular Immunology at the Cellular & Molecular Medicine Department, University of California San Diego School of Medicine. Our laboratory aims to examine RNA-helicases and their associated non-coding RNAs in nuclear architecture and transcription, post-transcriptional and post-translational regulation, and cell-fate determining metabolic switches underlying the development and effector functions of immune cells and their contribution to immune related diseases. Lab publication can be found on:  
<https://scholar.google.com/citations?user=FIlibyKYAAAAJ&hl=en&oi=ao>

Perspective candidates should hold a Ph.D. or equivalent degree and have a strong background in molecular biology. Experience in working with mice, flow cytometry and molecular biology in RNA and protein assays is required. Candidate should have demonstrated ability to work independently, attention to details, be dedicated, and self-motivated.

Please send a CV, statement of past research experiences, and contact information of three referees to Wendy Huang at [wendyjmhuang@ucsd.edu](mailto:wendyjmhuang@ucsd.edu)
