

## Normal and Malignant Hematopoiesis - Assistant, Associate or Full Professors: Cincinnati, OH, United States

The Stem Cell/Hematopoiesis Program and Hematologic Malignancies Program of the Cancer and Blood Disease Institute at Cincinnati Children's Hospital Medical Center invites applications for tenure-track faculty positions at the rank of Assistant, Associate, or Full Professors. The mission of these inter-related programs is to pursue multi-disciplinary, synergistic, and highly collaborative research dedicated to normal and malignant hematopoiesis. The programs are built upon a foundation of extraordinary institutional strengths in basic and translational sciences. We seek candidates with innovative approaches and novel paradigms to study the basic biology, modeling and translational aspects of stem cell biology, benign hematopoiesis, and malignancies including Leukemia/Lymphoma, Myelodysplastic Syndromes, and Myeloid neoplasms as well as premalignant conditions/clonal hematopoiesis and marrow failure syndromes.

More information about the Cancer and Blood Disease Institute can be found at <https://www.cincinnatichildrens.org/service/c/cancer-blood/research>

Cincinnati Children's Hospital Medical Center is a premier research institution with over 900 diverse and productive faculty members. Here, researchers work collaboratively across specialties and divisions to address some of the biggest challenges we face today in improving health. A strong network of research support services and facilities, along with institutional commitment to research, push our team of faculty, postdocs and support staff to explore the boundaries of what is possible, leading to significant breakthroughs. We are driven by our mission to improve health and transform the delivery of care through fully integrated, globally recognized research, education and innovation.

For additional information or to send your CV, a brief statement of interest, and the names of three references, contact: [research@cchmc.org](mailto:research@cchmc.org)  
Please specify the program in your email.

**Hematologic Malignancies Program:**

Daniel Starczynowski, Ph.D. and H. Leighton Grimes, Ph.D.

**Stem Cell/Hematopoiesis Program:**

Jose Cancelas MD, Ph.D. and Yi Zheng, Ph.D.
