

The Department of Biological Science at Florida State University invites applications for a tenure-track Assistant Professor in the broadly-defined area of **Developmental Biology**. The Department is interested in individuals using a variety of approaches in any experimental system to understand fundamental developmental processes or those of biomedical significance. Successful candidates are expected to establish a vibrant, extramurally funded research program and contribute to undergraduate and graduate education. The Department of Biological Science is a diverse and interactive group with 47 tenure-track faculty members in 3 graduate areas: Cell and Molecular Biology, Neuroscience, and Ecology & Evolution. We encourage candidates to apply who complement existing strengths in developmental genetics, virology, epigenetics, chromosome biology, neuroscience, structural biology, cell biology and evolution. Researchers have access to excellent facilities including a state-of-the-art imaging facility with a Titan Krios electron microscope, confocal live cell imaging and super-resolution 3D-SIM, as well as flow cytometry and mass spectrometry facilities, the Center for Genomics and Personalized Medicine and the National High Magnet Field Laboratory. For detailed information, please visit our website at [www.bio.fsu.edu](http://www.bio.fsu.edu).

**Apply at <http://jobs.fsu.edu> (JOB ID 40800).** Applicant should submit in a single pdf: a cover letter, curriculum vitae and research & teaching statements. In addition, arrange for 3 letters of support to be sent to [development.search@bio.fsu.edu](mailto:development.search@bio.fsu.edu). Review of applications will begin on **October 15, 2016** and will continue until the position is filled. Questions about the position should be directed to: [jfadool@bio.fsu.edu](mailto:jfadool@bio.fsu.edu).
