

Postdoctoral Position Currently Available Hematology and Gene Therapy Program

Dr. Punam Malik's lab has an immediate opening for a Research Associate in the Hematology and Gene Therapy Program. We are looking for successful post-doctoral fellows with a strong publication record in the field of molecular and cellular biology who want to use a two year Research Associate Position as a way to enhance their potential to apply for an academic faculty position. Prior experience in gene therapy is desirable. The project will utilize cellular, molecular, and biochemical techniques with an emphasis on sickle cell disease, as well as new approaches for gene therapy such as gene editing in hemoglobinopathies. This position is available for a two year period and successful applicant will be mentored in developing independent research projects and grantsmanship to help them develop an independent academic career after this period and be competitive for K awards.

Requirements: Applicants with a strong background in molecular biology, immunology, and animal studies, gene therapy, erythropoiesis and hematopoiesis are encouraged to apply. Experience with epigenetic studies or preclinical evaluation of viral vector mediated gene transfer, FACS analysis and/or primary cell culture, animal studies, gene editing is a plus.

Interested applicants should send a single PDF file containing; 1) a CV, 2) a brief statement of one page describing past accomplishments, research interests and career goals, and 3) contact information for 3 references to Uma Sivaprasad, PhD, postdoc recruiter at research@cchmc.org.

Cincinnati Children's Research Foundation

Cincinnati Children's Hospital Medical Center (CCHMC) is a premier pediatric research institution with over 900 diverse and productive faculty members. Here, researchers work collaboratively across specialties and divisions to address some of the biggest challenges we face today in improving child health. A strong network of research support services and facilities, along with institutional commitment to research, push our team of faculty, postdocs and support staff to explore the boundaries of what is possible, leading to significant breakthroughs. We are driven by our mission to improve child health and transform the delivery of care through fully integrated, globally recognized research, education and innovation.

Post-doctoral research fellows at Cincinnati Children's are valued for their unique interests and strengths, and are supported by our institution's strong programming for post-docs through the Office of Postdoctoral Affairs and the Office of Academic Affairs and Career Development. Mentoring, support for international students and an emphasis on crafting high-quality grant proposals are only a few of the features that set our program apart. Cincinnati Children's is a respected part of the broader, and very vibrant, Cincinnati community. With a thriving arts scene, numerous festivals celebrating music and food, a passionate fan following for our college and professional sports teams, and a variety of opportunities for outdoor activities, our region is truly a great place to work and live.
