

The Third Pillar Specialist

Mission Manager (Stem Cells Banking)

Brilliant Research is starting an **Exciting** new business unit in Personalised Stem Cell Banking.

As a the Founding Mission Manager at Brilliant Research, you will be Singularly responsible for a feasibility study to automate the reprogramming of blood cells to induced pluripotent stem cells using advanced microcarrier technology, that can scale to thousands of samples per year. The mission includes but are not limited to:-

- Working with the Brilliant Research technical team to define the parameters for stem cell banking from blood collection to reprogramming and freezing the final product.
- Coordinate and supervise an external consultants (e.g. the UK Stem Cell Bank) to perform a Process Automation feasibility study within 4 months and within budget.
- Together with a Business Manager, build a business partnership with a Cord Blood Banking company to collect, process test and store blood for future reprogramming.
- Apply for a Proof of Concept Grant from SPRING to fund these activities.
- Raise funds from Angel investors for the new business unit.
- Daily laboratory operation and management.

Requirements:

- An Advanced Degree (preferably Ph.D.) in chemical, biochemical, bioprocessing engineering or related degree with relevant experience, or an equivalent combination of relevant experience and/or education/training.
- Demonstrated skills and experienced in clever project management and versatile.
- Effective time management, multi-tasking and work tasks prioritizing skills.
- Effective and professional communication.
- Ability to manage budget and raise new fundings.
- Adept in pitching business and technical plans.

A remuneration package which will be a combination of salary and share options will be offered commensurate with performance. Great career advancement and rewards will be available for the bold candidate, who will become part of the Founding Team Members. The company is based in Singapore with plans to expand to the UK and USA within 3 years.
