

## **Postdoc (Research Fellow) position available**

We are looking for a postdoc (research fellow, RF) to join our lab to work on an exciting novel inflammation suppressor and its biomedical translation for lung diseases. Candidate with a keen interest in scientific research, a curious mind, strong experimental skills and demonstration of scientific achievement with previous first author publications in molecular cell biology or biochemistry is required. Prior experience in mouse models are desired.

For more information about our research, please visit our web sites:  
<http://www.dbs.nus.edu.sg/staff/ge.htm>; and  
<http://www.dbs.nus.edu.sg/lab/GeLab/>

Remuneration will be commensurate with the candidate's qualification and experience. Interested candidates are encouraged to send their CV and full contacts of three referees to:

A/Prof. Ruowen Ge, Department of Biological Sciences, National University of Singapore, Singapore, 119260. Email: [dbsgew@nus.edu.sg](mailto:dbsgew@nus.edu.sg).
